The material for three steel bridges is on hand, and work on the concrete abutments is being pushed. CITY TO CONTROL DETENTION HOME. Ordinance Committee Approves Plan Recommended by Juvenile Court.

Children under seventeen years old arrested in Richmond will hereafter be confined in a detention home controlled and managed directly by the city if the ordinance unanimously approved last night by the Committee on Ordinances and Reform is passed by the Council.

Upon representation of Mayor Ainslie, who spoke for the streeting committee of the Juvenile Court, the committee gave consent to the modification of the existing ordinance so that the city will abandon the present detention home at the Associated Charities building and will move into a building rented by the city.

Mayor Ainslie pointed out to the committee that under the State law which prohibits the confinement of a child under seventeen in jail or in a station house, the city had authorized the Juvenile Protective Society to make arrangements with some society for the custody of children pending trial.

Such an arrangement, he said, the Juvenile Protective Society had never been able to make, but had accepted the free tender of space in the old Ballard House operated by the Associated Charities. He explained that the location of this building made it undesirable for the custody of children, and that he had encountered great difficulty in getting a matron to remain in the neighborhood.

He also informed the committee that the chief of the Fire Department had refused to permit the placing of screens in the present home, without which the children would be exposed to the elements. He stated that the best policy for the city would be to rent a proper house in a suitable neighborhood and operate its own detention home. The ordinance which he presented covers the points and provides dates without other changes the existing juvenile ordinances of the city.

The Council, under the proposed ordinance, will not be asked to appropriate more money for the new detention home, as the present appropriation for the Juvenile Court will cover the increased expenses.
